

## **Belmont Forum CRA on Climate, Environment, and Health (CEH) National Annex: Chinese Taipei**

**Partners:** This call is supported by MoST (Ministry of Science and Technology)

**Notice:** Depending on all conditions of eligibility and peer review being met, the budget earmarked by the participating Ministry of Science and Technology for this call will be up to € 500,000.

Up to € 250,000 can be requested per project.

The official national call announcement for the Taiwan can be found via <http://belmontforum.most.ntu.edu.tw>. Applicants are advised to contact their National Contact Points before starting to prepare proposals for application. For Taiwan enquiries please see below.

### **Eligibility and national funding modalities:**

Only research organisations (universities, university colleges, research institutes or other authorities with research undertakings) eligible to receive funding from the MoST can apply for this call. Other sectors (e.g., stakeholders, industries, companies) wish to participate in this call, must secure their own funding, either self-funded or from other national funding agencies. Proof of secured funding must be demonstrated to the MoST upon request.

Each project shall not request for more than 3 Million New Taiwan Dollars (NTD) per year from the MoST. More than one Taiwanese team (from different institutions) participated in the same project can request NTD 3M/year from the MoST separately, only if they could clearly distinguish the tasks involved in the same project. The project period is maximum 36 months. A no cost extension period of maximum 12 months can be arranged upon request. For each successfully CEH research project, the MoST will perform a separate budget evaluation (rather than technical evaluation) to determine final amount approved. It is expected that applications to this call will be Collaborative Research Grants with the consortium composition as defined in the call document, and the MoST will fund the Taiwan partner of any successful trans-national collaboration.
