

## Belmont Forum and Future Earth co-branded Collaborative Research Action on Transdisciplinary Research for Ocean Sustainability

### **Organizational Annex: FAPESP, State of São Paulo - Brazil**

---

#### **Participating partner:**

This call is supported by the São Paulo Research Foundation (FAPESP).

#### **Available funding:**

Depending on all conditions of eligibility and peer review being met, the budget earmarked by the participating partner for this call will be up to 1,000,000 € (according to exchange rates at time of funding).

#### **Notice:**

The official national call announcement for the state of São Paulo, Brazil, will be published on the FAPESP website: <http://www.fapesp.br/en>.

Details of the call and the application process are provided via the <https://bfgo.org/> website. Applicants are advised to contact their National Contact Point before starting to prepare proposals for application. For national enquiries, please see below.

#### **Eligibility and national funding modalities:**

*(Detail any additional specific requirements for your country/funding agency e.g. building on specific programmes, focussing on specific areas within the topics, in-kind contributions etc.)*

Applications submitted under this call must follow the overall rules and conditions of a Regular Research Award (“APR”) with the consortium composition as defined in the SEI call text.

Above the usual eligibility conditions of the “APR” award, proponents from the State of São Paulo must be established researchers with a proven track record of participating in international interdisciplinary projects in the scientific area of the envisaged proposal.

It is obligatory that interested researchers from the state of São Paulo consult FAPESP regarding their eligibility prior to the proposal preparation as described in the specific guidelines ([www.fapesp.br/en/7941](http://www.fapesp.br/en/7941)). This procedure should avoid unnecessary efforts of researchers that ultimately would not be able to participate at the collaborative project.

Specific submission procedures and exceptionalities must be carefully observed. These include project duration of 4 years, budget cap, limited equipment provisions and extended travel allowances. Also, up to two Post-Doctoral fellowships can be requested.

It is expected that applications to this call will be Collaborative Research Grants with the consortium composition as defined in the call documents, and FAPESP will fund the partner from the state of São Paulo of any successful trans-national collaboration.
