Collaborative Research Action on Disaster Risk, Reduction and Resilience (DR³) National Annex: Brazil (State of São Paulo)

Partner:

This call is supported by the São Paulo Research Foundation (FAPESP), Brazil

Notice:

The official national call announcement for the state of São Paulo is published on the FAPESP website: www.fapesp.br/en.

Depending on all conditions of eligibility and peer review being met, the budget earmarked by FAPESP, as a participating partner for this call, will be up to € 1 million (according to exchange rates at the time of funding).

Details of the call and the application process are provided via the <https://bfgo.org/> website. Applicants are advised to contact their National Contact Point before starting to prepare proposals for application. For FAPESP enquiries please see below.

Eligibility:

Applications submitted under this call must follow the overall rules and conditions of a Regular Research Grant (“APR”) with the consortium composition as defined in the DR3 call.

Above the usual eligibility conditions of the “APR” grant, proponents from the State of São Paulo must be established researchers with a proven track record of participating in international interdisciplinary projects in the scientific area of the envisaged proposal.

It is obligatory that interested researchers from the state of São Paulo consult FAPESP

regarding their eligibility prior to the proposal preparation as described in the specific guidelines (www.fapesp.br/en/7941). This procedure should avoid unnecessary efforts of researchers that ultimately would not be able to participate at the collaborative project.

Funding modalities:

Applications must follow the overall rules and conditions of a Regular Research Grant (“APR”). Specific submission procedures and budget exceptionalities must be carefully observed. These include project duration of 3 years, budget cap, limited equipment provisions and extended travel allowances. Additionally, one Post-Doctoral fellowship can be requested.

It is expected that applications to this call will be Collaborative Research Grants with the consortium composition as defined in the call documents, and FAPESP will fund the partner from the state of São Paulo of any successful trans-national collaboration.
